MEETING REPORT WEEK 5

Team Name: Where To

Date of Meeting: 27/04/2022

Start Time: 10:30 **End Time:** 11:30

Meeting Location: EPOKA Halls

Moderator: Megi Nako

Other Members Present: Alban Xhepi
Alesio Gega
Endi Qose
Muhammed Yumer Chalashkan
Tea Papa
Yusuf Bera Ermis

Members Absent: None

Topics Discussed:
During this fifth group meeting we firstly presented the work we had to do this week and how much we had accomplished from everything that was assigned. Firstly, Tea and Megi presented their progress on prototype. Client interface was presented and all other members added their opinions on this UI/UX prototype. Then Alban and Endi presented their state diagrams. Endi was responsible to create the diagram of agency admin which turned out a bit complex but we agreed to "optimize" it next week. Other diagrams seemed fine. Yusuf and Muhamed presented their work regarding the swim lane diagram. They had started the work correctly and needed to create other swim lanes diagrams.

Later on, we also discussed about the plan we had to follow the next week. All members agreed to continue with the DFD lvl0 and lvl1, sequence diagrams and class diagrams. As well as create more cases on activity diagrams and swim lanes.

Decisions Made:

- Finishing the work assigned for this week until Friday before the class presentation.
- Everyone had to upload their work on GitHub on the respective repositories.
- For the next week we should proceed with the DFD lvl0 and lvl1, sequence diagrams and class diagrams.
- Enhancing activity diagrams and swim lane diagrams as well as "decomplexing" the agency admin state diagram.

Tasks Assigned:

- Tea and Megi would work on class diagrams as well as help on DFDs
- Alesio, Alban would be responsible for DFD lvl0 and lvl1.
- Endi and Megi would work on the sequence diagrams
- Yusuf and Omer would enhance the activity and swim lane diagrams
